EXECUTIVE SUMMARY

Motivated B.Tech Computer Science and Business Systems graduate with strong programming skills in Python and C++, and practical exposure to ERP systems and business processes through internships. Seeking a full-time software development role to apply this blend of technical and business knowledge to real-world solutions.

EXPERIENCE

Elena Geo Tech Private Limited

2026

Software Intern

Bengaluru, India

- **Built a full-stack CRM platform** with an integrated RAG-based AI chatbot using React.js, Node.js/Express.js, MongoDB, FastAPI, and ChromaDB for centralized customer and lead management
- **Implemented the embedding-retrieval-generation pipeline**, user authentication, and database design for accurate, document-grounded AI responses
- Supported device booting/flashing and **QC testing** of a handheld navigation device; completed Map Display System training

Ramco Cements

2025

Intern

Tamil Nadu, India

- Gained hands-on experience with **ERP systems** across Sales, Materials, Finance, HR, Production, Maintenance, and IT Infrastructure
- Strengthened knowledge of **IT security, networking, and connectivity models** for enterprise systems while working with cross-functional teams

PROJECTS

Saarthi AI | Next.js, FastAPI, PostgreSQL, pgvector, Kubernetes

2026

- Co-designed a **two-agent B2B sales platform** combining AI lead generation (LeadForge) with real-time voice sales coaching (VoiceCoach)
- Built the business case – market sizing, competitive analysis, pricing, and financial projections – positioning the platform to replace **3–5 disconnected tools**

EmotiLearn | FastAPI, MediaPipe, Express.js, React, MongoDB/SQLite

2026

- Architected a **real-time emotion-aware e-learning platform** using MediaPipe Face Mesh, Pose, and Hand tracking to detect learner confusion, fatigue, and engagement
- Built a weighted focus-scoring engine and adaptation rules system triggering hints, remedial content, or pacing changes based on learner state
